## PROFILE

Highly motivated Computer Science graduate specializing in Artificial Intelligence, with strong skills in Machine Learning, Deep Learning, and Business Intelligence. Experienced in data analysis and model development, eager to drive data-driven decision-making and innovation.

## PROFESSIONAL DEVELOPMENT

### Business Intelligence Intern

02/2025 – 03/2025

*RawafedTech*

Analyzed data, built dashboards with Power BI, and used SQL to support reporting and business insights.

### Full Stack trainee

06/2023 – 08/2023

*KFMC*

At King Fahad Medical City, I developed websites using HTML, CSS, and JavaScript for front-end, and C# for back-end development. I managed databases with SQL Server Management Studio (SSMS) and created data analysis dashboards using Power BI.

## EDUCATION

### B.Sc. in Computer Science (Artificial Intelligence Track)

09/2019 – 01/2025

*Majmaah University*

## SKILLS

- Python
- SQL
- Data Analysis
- Machine Learning
- Computer Vision
- Leadership
- Apache Airflow
- PowerBI
- SSMS
- Data Wrangling
- ETL
- Problem Solving
- Teamwork

## CERTIFICATES

- Core Designer - Dataiku

## AWARDS

### Innovation Hackathon at MU, 3rd Place

05/2025

*Majmaah University*

Designed an image recognition system for "rattab" a smart recycle bin

### Creative Student Award

06/2024

*Majmaah University - CCIS*

A creative student award for the most creative graduation project

## PROJECTS

### Braille Bell - Graduation project

08/2023 – 04/2024

A smart doorbell system that uses Deep learning and Image recognition to recognize people behind the door and speak their names and relationships to the blind person
